With GreenFlagSM Dental Collect

Transworld Systems has proudly partnered with Sikka Software Company to bring dental practices a unique receivables management tool called GreenFlag Dental Collect. GreenFlag Dental Collect integrates seamlessly with most practice management systems (PMS), and helps increase the overall cash flow while saving time and maintaining patient diplomacy.

GreenFlagSM Dental Collect users enjoy these benefits:

- Collect more money and increase cash flow with less work
- Maintain diplomacy with patients
- Automatically identifies overdue accounts for follow-up
- Flexible collection program that leaves the dental practice in control.
- Compatible with most dental practice management systems

GreenFlagSM Dental Collect is designed to:

- Evaluate each account and send the qualifying accounts to Transworld Systems
- Report payments
- Track the status of each account and allows the dental practice to stop Transworld notifications when payment has been received.
