

## FOR IMMEDIATE RELEASE

# Transworld Systems & Sikka Software Partner to Accelerate Cash Flow for the Dental Market

**August 1, 2011 – Santa Rosa & Milpitas, CA** – Transworld Systems Inc. (“Transworld Systems”), a leading accounts receivable and cash flow management provider to dental practitioners, and Sikka Software Corporation, a market leader for business analytics and optimization products, have partnered together to provide dentists with a new service called GreenFlag<sup>SM</sup> Dental Collect.

The new service is designed to accelerate receivables recovery, increase cash flow and maximize profit for dental practices. GreenFlag Dental Collect includes Sikka Software’s revolutionary Practice Monitor® to enable one click access for dental offices to submit patient accounts for billing follow-up and collections with best in class solutions provided by Transworld Systems.

So far, the service has provided successful results for dental practices. “Since working with the GreenFlag Dental Collect service, we have had great results in our collections efforts,” said Bonnie Weinstein, Office Administrator for Dr. M.W. Allen IV. “The patients are responding to the statements sent by Transworld Systems. It also allows for better control of our accounts receivable with less time invested.”

“Transworld Systems is committed to providing dentists with superior cash flow management solutions that are convenient, and enable increased efficiency and higher productivity so dentists can focus on their patients.” said Barney Zeng, Senior Vice President and General Manager of Transworld Systems. “Sikka Software’s real time optimization products complement Transworld Systems’ standing in the dental community. Working together, Sikka and Transworld can offer better value than working with dental practices individually with combined efficiency and effectiveness in managing receivables.”

“Sikka will provide the GreenFlag Dental Collect toolbar built on the Sikka Practice Monitor® platform to Transworld Systems’ dentists, by providing an easy way to manage profit recovery, accounts receivable and collections via a very simple process,” said Vijay Sikka, CEO & President of Sikka Software Corporation. “This is a further validation of our powerful information integration solution enabling us to become a significant platform and valuable service provider in the dental industry.”
